PREFACE

This book contains 366 ancestor charts which were submitted by 313 compilers from all over the United States, each having at least one Tuscarawas County connection.

Charts appear as submitted, and individual compilers are responsible for the information they contain. The charts are arranged in alphabetical order by name of the compiler, with the exception of a few that arrived after indexing had begun. These are placed just ahead of the index.

We attempted to index every surname on every chart. If any were missed, we apologize.

If you wish to exchange information, contact the compiler. Remember, it is a common courtesy among genealogists to always include a self-addressed, stamped envelope (SASE) with any request for information. Many genealogists do not feel an obligation to answer a request that does not include a SASE.

It is our hope that this book will help many people find their Tuscarawas County connections.
